Terms and Conditions for Sewer Services

We/I, the undersigned (hereinafter referred to as "the applicants"), hereby request the City of Ridgetop, located in parts of Robertson and Davidson Counties, Tennessee (hereinafter referred to as "the city"), to provide sewer service to the address listed, subject to the terms and conditions stated below:

- 1) The applicant shall abide by the City of Ridgetop Sewer Use Ordinance (97-62) and any future amendments or changes to said ordinance.
- 2) For services requested, the applicant agrees to pay the City of Ridgetop in accordance with the City's rate schedule on file with the City Recorder's Office. The rates will be computed based on the applicant's water usage as provided by the White House Utility District or any other utility district operating within the City's jurisdiction. The applicant hereby authorizes the White House Utility District and any other utility district operating within the City to furnish the City with information concerning the applicant's water usage to determine the appropriate rate. The amount charged to the applicant is set forth by City Ordinance, which may be adjusted from time to time by the City, following public notice of the City's intention to raise the rates.
- 3) A statement for services will be issued monthly, and payment is due upon receipt. The bill becomes delinquent if not paid by the designated due date. The City shall bill the applicant for sewer usage and enforce collection of the sewer bill. Late charges and other associated fees, including court costs and attorney fees incurred due to non-payment, must be paid before service is restored.
- 4) The applicant further grants permission to the City, or its authorized representatives, the right to inspect the sewer system located on the applicant's property from time to time. This includes permission for City-authorized personnel to provide service as needed for the sewer system located on the applicant's property.
- 5) The applicant understands that the City of Ridgetop will provide all necessary services for the sewer system, including normal wear and tear. However, any service problems or damages to the system that are deemed by the City to result from malicious intent or improper use will be the financial responsibility of the applicant, and service will be suspended until corrective actions are taken.
